## **1- my vision**

1- I believe the main problem when something bad happens in a society , is brainwashing .

2- lovely good people can do bad things because of brainwashing .

## **2-my project**

1- I keep the sculpture with no changes

2- I make a big curvelly wall around the sculpture ( a waterproof shield with glass and beton or metal ).

3- I take surreal photos to show effect of brainwashing on society.

4- I hang the photos on the wall in big sizes .
